

PROFESSIONAL SUMMARY

Data Analytics professional and CPA (M.S. Business Analytics, UFL Dec 2026) with 4+ years of experience analyzing large-scale financial and transactional datasets in audit, risk, and consumer-intelligence contexts. Skilled in SQL, Python, Power BI, Tableau, and data-storytelling for C-suite audiences. Background in GAAP, IFRS, and financial-cycle analysis (R2R, O2C, procurement) positions me to add immediate value to M&A; due diligence engagements.

TECHNICAL SKILLS

Data Analytics & BI:	SQL · Python (Pandas, PySpark, scikit-learn) · R · Power BI · Tableau · Excel
M&A; / Finance:	Financial Statement Analysis · US GAAP · IFRS · Revenue Recognition · Valuation
Data Engineering:	Snowflake · AWS · Azure Data Lake · Databricks · Power Query · ETL
Business Cycles:	Order-to-Cash · Procure-to-Pay · Record-to-Report · Inventory · Supply Chain
Tools:	Jira · Confluence · Microsoft Access · PowerPoint · Bizagi

PROFESSIONAL EXPERIENCE

Data Science Team Lead – Consumer Insights Analyst

Sep 2025 – May 2026 | Gainesville, FL

Bank of America (UF Practicum Project)

- Managed and analyzed ~10 GB of high-volume customer and transaction datasets; normalized, validated, and modeled data to surface anomalies and trend insights aligned with deal-hypothesis testing.
- Built anomaly-detection models (SARIMA, regression, Nelson Rules) to identify transaction irregularities across 3,000+ financial centers; investigated root causes and produced board-level analytics reports.
- Executed end-to-end data workflows—understanding, cleaning, feature engineering, modeling, and evaluation—using PySpark, Pandas, scikit-learn, and statsmodels within a structured CRISP-DM framework.
- Designed and validated dashboards tracking KPIs across business units; presented model outcomes and strategic recommendations directly to senior leadership.

Semi-Senior External Auditor

Aug 2022 – Feb 2024 | Buenos Aires, Argentina

Deloitte – External Audit

- Performed detailed valuation and analytical testing on investment portfolios (stocks, bonds, mutual funds) and core financial cycles (cash, receivables, revenue, fixed assets) for clients >\$10M revenue.
- Led Tier-3 audit engagements: risk assessment, materiality estimation, and testing-strategy design—building the analytical rigor and financial-cycle expertise central to M&A; due diligence.
- Prepared AML compliance documentation and financial reconciliations; facilitated third-party confirmations to validate transaction accuracy.
- Analyzed and interpreted complex financial data to identify misstatements; developed fact-based audit reports communicated to client CFOs and controllers.

Semi-Senior Internal Control Consultant

Feb 2024 – Aug 2025 | Buenos Aires, Argentina

Deloitte – Strategy, Risk & Transactions

- Designed and implemented 20+ internal control mechanisms across 20+ departments for Tier-1 automotive and technology clients, enhancing compliance and risk-mitigation frameworks.
- Directed fraud-mitigation framework design and deployment for a major automotive client across two manufacturing plants, improving detection, prevention, and regulatory compliance.
- Executed SOC 1 / SOC 2 readiness assessments—analyzing process documentation, IT controls, and cybersecurity procedures—and conducted on-site data-center walkthroughs for physical-security compliance.
- Led gap analyses and risk assessments; recommended control activities adopted across multi-department engagements, directly reducing operational and IT risk exposure.
- Coordinated bilingual (Spanish/English) cross-functional communications across 15+ teams using Agile methodology.

Consulting Committee Analyst

Aug 2025 – Present | Gainesville, FL

UF AIS Organization

- Delivered data-driven consulting to nonprofits using Python, Power BI, R, and Tableau for business-insights discovery and operational optimization.

- Developed a Power BI dashboard for a high-volume nonprofit call center analyzing 300+ daily calls, enabling real-time monitoring of community-assistance KPIs.
- Connected data sources to AWS cloud via Power Query and data-lake pipelines, enabling automated refreshes and dynamic dashboard updates.
